Professional Summary

Software Developer at 3EA Global with career progression to Executive–ITES. Experienced in PHP, Laravel, RESTful APIs, React, Inertia.js, and MySQL, with exposure to multi-tenant ERP/HCM architecture and AI-powered resume matching. Focused on full-stack development, enterprise applications, and AI integration.

Professional Experience

Executive–ITES Sep. 2026 – Present
3EA Global *Lucknow, Uttar Pradesh*
- Develop software using PHP and Laravel within the organization's enterprise application environment.
- Contribute to a multi-tenant ERP and HCM platform built with Laravel, React, Inertia.js, and MySQL.

Associate Feb. 2026 – Aug. 2026
3EA Global *Lucknow, Uttar Pradesh*
- Developed and integrated RESTful APIs with frontend interfaces to support application data exchange and business workflows.

Intern Aug. 2025 – Feb. 2026
3EA Global *Lucknow, Uttar Pradesh*
- Contributed to web development using PHP and Laravel in a professional software development environment.

Technical Skills

Languages: PHP, JavaScript, TypeScript, C, C++
Frontend: React.js, Next.js, Inertia.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Laravel, Node.js, Express.js, RESTful APIs, MVC Architecture
AI Integration: AI Resume Matching, Resume-to-Job-Description Analysis, OpenAI API Integration, Prompt Engineering
Databases: MySQL, MongoDB
Build and UI Tools: Vite, Tailwind CSS, Lucide React
Server Management & DevOps (Currently Learning): Linux Fundamentals, VPS Management, DNS Basics, Web Servers (Nginx/Apache), cPanel, WHM Fundamentals
Developer Tools: Git, GitHub, Visual Studio Code, Visual Studio, Postman, Redux Toolkit
Core Concepts: Multi-Tenant Architecture, Role-Based Access Control (RBAC), Object-Oriented Programming, Data Structures and Algorithms, DBMS, Computer Networks

Selected Projects

Enterprise Multi-Tenant ERP System | *Laravel, PHP, React, Inertia.js, MySQL, Vite, Tailwind CSS* 2026 – Present
- Contribute to an enterprise multi-tenant platform designed for centralized group administration and isolated company-level data.
- Platform architecture includes tenant management, Master Admin governance, role-based access control (RBAC), and configurable module enablement.
- Built on Laravel/PHP, React, Inertia.js, and MySQL, with broader ERP/HCM workflows spanning recruitment, employee management, performance, payroll, finance, and project operations.

Recruitment & Induction System (RSI) | *Laravel, PHP, React, Next.js, Inertia.js, MySQL, AI* 2025
- Contributed to a recruitment and employee induction platform supporting hiring workflows, candidate tracking, interview stages, and onboarding.
- Worked with Laravel/PHP, React, Next.js, Inertia.js, and MySQL to support frontend-backend integration and recruitment data workflows.
- Built an AI Resume Matcher that analyzes candidate resumes against job descriptions to assess alignment between applicant profiles and role requirements.

Education

Babu Banarasi Das Institute of Technology and Management Lucknow, India
Bachelor of Technology in Computer Science and Engineering *2025*
SGPA: 8.0

Achievements

- Solved 300+ Data Structures and Algorithms problems on LeetCode.
- Served as Literature Head of the college community, coordinating literary events, content planning, and team activities.
- Secured runner-up position in a college-level debate competition at Enigma.
