EDUCATION

Babu Banarasi Das Institute of Technology and Management

Lucknow, India

Bachelor of Technology, Computer Science and Engineering SGPA 8.0

2025

EXPERIENCE

Associate Software Engineer

Aug. 2025 - Present

3EA Limited

Lucknow, Uttar Pradesh

- Successfully completed an 8-month, industry-focused web development internship, contributing to live production projects using PHP and Laravel.
- Developed and integrated RESTful APIs with front-end interfaces to ensure smooth and efficient data exchange.
- Independently developed and deployed a Laravel-based HRMS for **Hera Public School**, enabling staff attendance tracking, leave workflows, and automated payroll generation.

MERN Stack Development Intern

July 2024 – Sept. 2024

Shape My Skills

Lucknow, Uttar Pradesh

- Completed an internship at ShapeMySkills, gaining hands-on experience with the MERN stack, including MongoDB, Express.js, React.js, and Node.js.
- Created responsive and dynamic front-end components using React.js and integrated them with back-end services built on Node.js and Express.js.
- Leveraged AI-assisted development tools to improve debugging workflows and optimize API performance.

PROJECTS

Recruitment & Induction System (RSI) | *Laravel, PHP, React, Next.js, MySQL, Inertia, MVC Architecture* 2025

- Developed an industry-level Recruitment and Induction System (RSI) to automate hiring workflows and employee onboarding processes for organizational use.
- Implemented scalable MVC architecture using Laravel and PHP, and built a responsive frontend with React, Next.js, and Inertia to ensure seamless backend–frontend integration.
- Designed and optimized MySQL databases to efficiently manage candidate profiles, recruitment stages, interview tracking, and employee induction records.

MockMate | *React, Node.js, Express, MongoDB, OpenAI API, Tailwind CSS, Firebase*

July 2025

- Built an AI-powered mock interview platform using the OpenAI API to generate role-specific interview questions, model answers, and intelligent feedback dynamically.
- Designed prompt structures and backend request flows to ensure accurate, context-aware AI responses based on selected job roles and technologies.
- Developed scalable RESTful APIs with Node.js and Express.js and integrated them with a responsive React + Tailwind CSS frontend for seamless AI-driven workflows.

TECHNICAL SKILLS

Languages: C, C++, Javascript, Typescript, PHP

Frontend: Html, Css, React.Js, Bootstrap, Tailwind Css, Inertia

Backend: Express.Js, Node.js, Laravel, RestAPIs, MVC Framework

AI: OpenAI API integration, Prompt Engineering, AI-assisted development, AI-powered application workflows

Developer Tools: Git, Github, VS Code, Visual Studio, Postman, Redux Toolkit

Databases: MySQL, MongoDB

Coursework: OOPS(Object Oriented Programming), DBMS, Data Structures, Computer Network

ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms(DSA) problems on LeetCode, demonstrating strong problem-solving, algorithmic thinking, and coding proficiency.
- Served as Literature Head of the college community; organized and led literary events, managed content strategy, and coordinated team activities to boost engagement.
- Achieved Runner-up position in college-level debate competition at Enigma, showcasing strong communication, critical thinking, and public speaking skills.
